

Hack the waste: find a solution for the global waste problem

Belgium 24 – 26 March 2022

Mo March 21st: Ice-breaking session (program & get to know your team).
18h-19h30 (digital session)

Thu March 24th: 15h– 18h: Visit the Corda Campus, the pioneering tech campus in the heart of the Euregio border region.

- Welcome & introduction to the Limburg startup scene (corda 1).
- Visit the office spaces and incubator
- Keynote 'the importance of softskills in future jobmarket'
- Presentation of findings market research

How to get there? (bus 58 from Hasselt , Dussartplein):

<https://www.cordacampus.com/en/site/>

Fri March 25th:

10h: Departure to Leuven (take all luggage with you, we won't return to the hotel)

12h: Start 24hHackaton

- Care to help save earth from drowning in trash?
- Want to think up innovative solutions in a team of students from around the world?
- Do you want to contribute to the solution of a global waste problem?

Imagine that **in a span of just 24 hours**, you're tasked to create within an "interdisciplinary" team **a new approach to waste management**. Who knows your proposal convinces investors and may even open new doors for your career. Your team's proposal is to include a new application and preparation of the entire concept for the development of the solution into a potential innovation with a convincing pitch for investors.

Participating students from Belgium, the Netherlands, South Africa, Croatia, Serbia, Slovenia, Latvia, Norway, Brasil, Denmark!

Sat March 26th: 12u30 End Hackaton, kiss & goodbye

13u00 Departure (train to Zaventem airport or stay in Leuven one more night)
